

# Q.BO TOUCH

## RANGE

Wireless digital keypad.

## CODE:

P121024

Q.bo Touch  
Wireless digital keypad 433 MHz  
Rolling code.

## BENEFITS

**New design language:** Design, innovation and technique. These are the messages transmitted by the new range of flashing beacons, a perfect blend of style and functionality, handiness and safety.

**Easy installation:** Easy and quick to install, it guarantees a minimum lay down time, and a fast and simple setting.

**Performance:** Compatible with BFT products range, it permits to manage up to 10 applications and identify up to 100 users.

## PLUS

**Backlit touch keyboard:** Maximum reliability and resistance to bad weather conditions, excellent key readability.

**Intuitive and quick programming:** Reduced installation time and complexity.

**Range up to 150mt:** Installation possible even if the control point is very far from the users area.
